Helpful Yellow Book Resources!

Do you audit in the Yellow Book arena or are you interested in doing so?

Refer to these helpful resources to become familiar with the requirements.

- **US Government Accountability Office (GAO)** — www.gao.gov
- **Government Auditing Standards (The Yellow Book)** — www.gao.gov/yellowbook/overview
- **Government Auditing Standards: Guidance on GAGAS Requirements for Continuing Professional Education** — www.gao.gov/products/GAO-05-568G

Remember! Auditors conducting Yellow Book engagements should generally not count taxation courses toward their CPE requirements. There are a few exceptions to the rule. Practitioners should closely read the GAO statement. The GAO provides information in the document Guidance on GAGAS Requirements for Continuing Professional Education, which is a great resource for reviewing CPE compliance requirements.

Actively participate and earn free CPE!

Committee volunteers are OSCP members – just like you – who share their knowledge and expertise to design high-quality conference programming for CPAs and their staff. The time commitment is minimal – most conferences are planned during two or three meetings.

INFORMATION REGARDING LIMITATION OF "NON-TECHNICAL" CPE FOR LICENSEE RENEWAL

The Oregon Board of Accountancy's OAR 801-40-040 limits the CPE that licensees can claim in non-technical areas to 16 hours per renewal period. Non-technical CPE may be identified as interpersonal management skills, communication, public relations, practice development, and business management & organization. This list is illustrative but not conclusive of subjects considered non-technical.

(To assist OSCP program participants, the OSCP Professional Development Strategic Committee has analyzed and indicated those programs that we deem as non-technical CPE. Those programs are indicated with the non-technical symbol [NT]. Licensees should be aware that according to the Oregon Board of Accountancy requirements, the responsibility for substantiating that a particular program is acceptable and meets the requirements rest solely with the licensee.)
